About

The *ILP Data* includes student level data regarding the student's Individualized Learning Plan. The **Individual Learning Plan (ILP)** has been a requirement for all Rhode Island students in grades 6-12 since 2005 when it was incorporated into the state's Secondary School and Graduation Requirement Regulations. ILPs are a student-directed planning and monitoring tool that customizes learning opportunities throughout students' secondary school experience, broadens their perspectives, and supports attainment of goals. The ILP documents students' interests, needs, supports, course selections (including access to college level programming), transition placements and other learning experiences both in and out of school. This information produces a thoughtful program of study leading to proficiency for graduation and postsecondary experiences. A meaningful ILP for all Rhode Island students:

- Begins no later than entry into sixth grade and is maintained through 12th grade.
- Is revisited at least twice each school year, and at key transition periods for students.
- Helps students identify and meet their goals in three domains: academic, career and personal/ social.
- Coordinates with other support plans as appropriate. For example, individualized education programs (IEPs), Section 504 plans, Personal Literacy Plans, etc.

Both the Secondary School Regulations and the state's **PrepareRI state action plan for career readiness** identifies the ILP as the backbone of personalization and relevance of a student's education. By the 2020-2021 academic year, it is the expectation that all middle and high schools will have either adopted an ILP system from the state-vetted menu or developed their own ILP system and curriculum model that meets the state's expectations.

Requirements

The *ILP* data submission is a new submission that LEAs are required to submit to RIDE. *ILP* must be submitted to RIDE on a quarterly basis.

Changes for the 2020-21 School Year

This is a new submission for the 2020-21 school year.

Submission Process

ILP data can be submitted through eRIDE (www.eride.ri.gov) using the Enrollment Census application or through the Automated Data Transfer (ADT) agent. *ILP* is a submission type within the Enrollment Census application.
