Agenda

- CTE Data Collection Timeline Overview

- Program Approval Overview

- Outcome Measures

- Data Elements & Definitions

- Uploading Through eRIDE

Overview – CTE Data Collection

- 2012 Regulations Governing Career and Technical Education (CTE)
  - All **RIDE approved or provisionally approved career preparation programs** must meet RIDE established targets for student outcomes. (2.2)
  - LEAs that administer RIDE-approved career preparation shall: meet the career preparation program standards and participate in the state-managed quality assurance process; collect and report accurate and timely CTE data. (3.2)

- Workgroup of program leaders helped develop the outcome metrics and participated in the study year collection.

Study Year Collection		Ad-Hoc Collection		Comparison Collection		Impact Year Collection		Annual Collections
• Data from SY 12/13 • Collected from workgroup included most programs	→	• Data from SY 13/14 • All approved programs • June 2014	→	• Data from SY 14/15 • All approved programs • Collected through eRIDE • June 2015	→	• Data from SY 15/16 • All approved programs • Collected through eRIDE • June 2016	→	• CTE data annually collected from all approved programs • June 20XX

Overview – CTE Program Approval

- The CTE Program Approval Process is based on the CTE Career Preparation Program Standards
- Conducted each year for currently approved programs and programs that wish to gain approval
- The outcome targets, once fully developed, will inform program approval

Demonstrate Evidence of Meeting the Seven Career Preparation Program Standards

Meet Student Outcome Targets
(annually beginning SY 2016/17)

Self-study and application

Targeted site visit

Program Approval Process

Student Outcomes

1. Industry-recognized credentials earned

2. Postsecondary credit earned

3. Advanced standing in a registered apprenticeship earned

4. Program completion

5. Postsecondary enrollment

Additional Proposed Metrics

- Program cost effectiveness

- Graduation Rate

Key Data Elements

CTE students who are enrolled in programs need to be identified and student outcome data provided by programs.

The complete specifications can be found in the [data specification document](#)

- o **Program of Study**

- o **Course Sequence**

- o **CTE Students Enrolled (Participant)**

- o **Concentrator**

- o **Completer**

- o **Recognized Credential**

- o **Postsecondary Credit**

- o **Advanced Standing in an Apprenticeship**

CTE Programs

- **Career Programs of Study – Approved CTE Programs**
  - Provides structured, sequenced academic and technical courses
  - Offer no fewer than three connected, rigorous non-duplicative career and technical education courses
  - Report the school code or CTE center code for where the program is actually delivered

- **Program Type**
  - The general category the CTE program falls under.
  - These categories align to UCOA, CIP codes, credentials and allow for better reporting to meet state and federal requirements
  - RIDE has designated the program type for the current RIDE-Approved programs, these can be found in the data specification document

- **CIP Code**
  - CIP (Classification of Instructional Programs) codes are developed by NCES.
  - RIDE will accurately track courses to fields of study for federal reporting
  - Set up with a two-digit category, then 2-4 digits after the decimal place drills down to specific course content.
  - The CIP website, has an easy search by keyword tool and also a selector tool

- **Students Enrolled (Participants)**
    - A student who is enrolled in and has completed at least one course in an approved CTE program
    - Some students may only be taking the course as a one-off elective and are not actively enrolled in the approved program of study
    - Programs must report the students who are enrolled the program of study

- **Concentrator**
    - A student who completes at least two courses or parts in the required sequence of a program of study.
    - The program defines the concentrator course
    - It is important that the concentrator course is a point where the student is invested in completing the program.

- **Completer**
    - A student who completes all the required courses as outlined in the course sequence for the program of study.
    - The course(s) with the highest number in sequence will be used to determine whether the student completes a program.

- **Course Sequence**

  o The specific order of courses <u>required</u> for the student to complete the program of study.

  o The sequence will be used to determine which students are concentrators and completers

  o Reporting an accurate course sequence concentrator course is key

  o RIDE will match CTE students reported to TCS to determine the student's status in the program

Definitions of Key Data Elements

Example

Three courses are required, students may choose from level #2 options

Local Course ID	Course Name	Sequence
455	Introduction to Culinary Arts	1
456	Restaurant Management	2
457	Cooking Methods	2
499	Culinary Capstone	3

Participant

Either signal Concentrator, the pre-req is 455

Ensure the local course ID matches TCS

Completer the pre-reqs are either 456 or 457

Example

Three year program made up of 5 required courses broken into semesters

Local Course ID	Course Name	Sequence
780F	Hospitality, Event Planning I	1
780S	Hospitality, Event Planning I	2
790F	Hospitality, Event Planning II	3
790S	Hospitality, Event Planning II	4
799	Hospitality, Event Planning III	5

Students in courses 1-3 are participants

#4 is the concentrator course
The 2nd full part of the program

Completer

- **Recognized Credential**
  - A specialized certificate that provides portable, meaningful documentation that a student has mastered an industry-recognized range of skills, met necessary training and education requirements, and demonstrated readiness to enter a specific industry.
  - The list of recognized credentials by program category is on the RIDE website
  - It will be modified at specified periods as new credentials are proposed

- **Postsecondary Credit**
  - Credits students earn through a district, school or program-guided agreement including: articulation agreements, dual enrollment, concurrent enrollment, AP and/or IB credit while enrolled in a program of study.
  - Data elements: CCRI, RIC, URI, In State Private, Out of State, AP, IB.

- **Advanced Standing in a Registered Apprenticeship**
  - Through a school or program-guided agreement, a student qualifies for credit toward a registered apprenticeship while enrolled in the program of study
  - A list of registered apprenticeship areas is available on the RI DLT website

- A list of all acceptable codes is part of the data specification document.

Uploading CTE data through eRIDE:

Log into eRIDE (www.eride.ri.gov):

Click on the Enrollment Census:

Click Start:

Click Submit Data:

1-Choose the CTE file you plan to upload
2-Select Complete Year-To-Date or Incremental Updates
3-Click on Choose File and select your file
4-Click on Upload

Presubmission Menu and Upload

Please select a submission type from one of the checkboxes on the left. Also, please indicate whether this submission is a Complete Year-to-Date upload (which will replace all current-year data) or an Incremental Update (which will allow you to upload changes to your current enrollment data).

Submission Type

○ Enrollment	○ Program Core	○ Attendance
○ Discipline	○ Summer Withdrawals	○ TCS: Course
○ TCS: Section	○ TCS: Student	○ TCS: Staff
○ Term	○ Student Contact	○ Grade Earned
○ GPA Collection	○ CTE: Programs	○ CTE: Courses
○ CTE: Student in Programs	○ CTE: Apprenticeship Programs	○ CTE: Recognized Credentials Earned
○ CTE: Post Secondary Credit		

Processing Type

○ Complete Year-To-Date
○ Incremental Updates

Upload a file by clicking on Browse. Then Click on the Upload button.

[Choose File] No file chosen   [Upload]
