## Webinar for LEA McKinney Vento Homeless Liaisons and LEA Data Mangers

*Using Data to Measure Success and Improve Programs*

**Presenter: Suzanne Peck Program Specialist, TA National Center for Homeless Education (NCHE)**

Join us for this 90-minute session to deepen your understanding of Education for Homeless Children and Youths EHCY data for the State of Rhode Island. The session is designed to help attendees:

- *locate data tools, understand how to analyze data with the goals of improving their programs and impacting & student success/well-being.*
- *provide an opportunity to discuss the data, share ideas on how to improve identification, and support students through an increased partnership with community-based organizations.*
- *network with other liaisons, data stewards, and YHDP personnel to discuss local needs and next steps.*
- *use the provided resources to help each LEA understand its own data better and use the data for program improvement.*
